Dear Valued Shareholder,

As CEO of BTS Asset Management (“BTS”), I would like to thank you for investing with the BTS Tactical Fixed Income Fund (the “Fund”) and take a moment to review developments related to the Fund, including strategies we’ve employed, recent returns and our vision for the second half of 2016 and for 2017.

First, in my last letter I shared with great enthusiasm the fact that the Fund had reached its 15 year anniversary as an operating entity, having previously been launched in January 2000 as a private LLC. Today I am happy to share that the Fund, as of May 31, 2016, has reached its 3 year anniversary as a publicly available open-end mutual fund. This is an exciting time for the Fund as well as for BTS and demonstrates shareholder loyalty and commitment.

Second, for the Fund, we have seen an exciting amount of shareholder activity and purchases over the past year. From January 2, 2015 through June 30, 2016, the Fund grew from just over \$121 million to almost \$370 million, a testament to you, the loyal shareholder, and the understanding of the importance of a tactical strategy. We recognize the trust you have placed in us as fund manager and look forward to working together toward potential prosperity in 2016 and 2017.

Regarding 2016 returns through mid-year, it is significant to note that during the market correction in risk-assets in early 2016, the Fund was positioned in a “risk-off” move, investing in U.S. Government bonds as a “flight to quality.” As markets then recovered and concerns about a myriad of economic factors abated, the Fund invested in high yield bonds on February 23, 2016 and held this position during a favorable uptrend through to the close on June 27, 2016. We believe this uptrend is reflected by Class A’s overall total return of 10.31% for the six month period ended June 30, 2016. To better understand this figure, we compare Fund performance to that of the Fund’s benchmark, the Barclays Capital U.S. Aggregate Bond Index, which returned 5.31% over the same six month period ended June 30, 2016.

The Fund outperformed its benchmark due, in part, to the benchmark correcting as the “risk-off” trade noted above abated and “risk-on” appetite increased. With risk-on, the Fund was allocated to high yield bonds.

As the uptrend in high yields continued, the benchmark was experiencing significant volatility as certain events, such as “Brexit” and data points like that of the disappointing May job numbers in the United States were reported, all of which sent the markets into notable swings. During this volatility the Fund remained invested according to its primary mandates and was able, therefore, to outperform the benchmark as a result.

Looking back, we truly believe returns demonstrate our philosophy that is implemented through our strategies. Our primary philosophy of preservation of capital is accompanied with our core buy and sell

disciplines and our ongoing attempts to avoid significant short-term swings in an effort to provide strong and sustainable risk-adjusted returns.

*Today, we see duration risk as high, as recent data points have been stronger in a better than expected rebound in jobs and other general economic data. To navigate this environment now and in the long-term, BTS thinks that employing BTS Indicators in a weighted investment model may help us achieve the Fund's goals, potentially more so than a passive approach that can lead to magnified losses. **We continue to believe at our core that an 'unconstrained approach', wherein BTS can go to cash to preserve capital and take a limited short position in an attempt to enhance returns continues to make sense during periods of volatility.** A short position involves the sale of a borrowed security, commodity or currency with the expectation that the asset will fall in value. BTS' fluid model approach is designed to be cognizant of periods of volatility and to invest on confirmation of strong price trends. Consequently, our indicators place investor assets upon confirmation of stronger underpinnings, and move defensively during volatility in the financial markets and bond sectors.*

Whenever trading and investing systems seek preservation of capital there may be times of defense investing wherein returns are missed in preference for safety of assets. In the long run, over 35 years of investing with this type of strategy with BTS Indicators, our investment team has created competitive returns through an 'unconstrained approach' rather than passive investing.

Of course, there is no guarantee that any investment strategy will achieve its objectives, generate profits or avoid losses.

Thank you for choosing the BTS Funds and good luck in 2016 and 2017!

Sincerely,

Matthew Pastis CMT

Vilis Pastis

CEO, BTS Asset Management

Founder & Director of Research

The Barclays Capital U.S. Aggregate Bond Index is comprised of government securities, mortgage-backed securities, asset-backed securities and corporate securities with maturities of one year or more to simulate the universe of bonds in the market. \* The performance data quoted is historical. **Past performance is no guarantee of future results.** Current performance may be higher or lower than the performance data quoted. The principal value and investment return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemptions of Fund shares. Returns greater than 1 year are annualized. The Fund's total operating expenses, as stated in the fee tables of the Fund's May 1, 2016 prospectus is 2.18%, 2.93%, 1.93% and 2.43% for Class A, Class C, Class I and Class R shares, respectively. Class A shares are subject to a maximum sales charge of up to 5.00% imposed on purchases and a maximum deferred sales charge of 1.00% on shares redeemed within 18 months of purchase (if the initial sales charge is waived). All share classes are subject to a redemption fee of 1.00% if redeemed within 30 days of purchase. For performance information current to the most recent month-end, please call 1-877-287-9820.

\*\* The Barclays Capital U.S. Aggregate Bond Index (the "Index") is an unmanaged index comprised of U.S. investment grade, fixed rate bond market securities, including government, government agency, corporate and mortgage-backed securities between one and ten years. Index returns assume reinvestment of dividends. Investors may not invest in the Index directly. Unlike the Fund's returns, the Index does not reflect any fees or expenses.

(a) Inception date for Class A is January 1, 2000. Class A does not have performance as a mutual fund prior to May 31, 2013. The prior performance shown above is for the Fund's predecessor limited liability company (BTS Tactical Fixed Income Fund LLC, formerly known as BTS Asset Allocation/High Yield Fund LLC). The prior performance is net of management fees and other expenses. The predecessor limited liability company had been managed in the same style and by the same portfolio manager since the predecessor limited liability company's inception on January 1, 2000. The Fund's investment goals, policies, guidelines and restrictions are, in all material respects, equivalent to the predecessor limited liability company's investment goals, policies, guidelines and restrictions. The following information shows the predecessor limited liability company's annual returns and long-term performance reflecting the actual fees and expenses that were charged when the Fund was a limited liability company. From its inception on January 1, 2000 through May 31, 2013, the predecessor limited liability company was not subject to certain investment restrictions, diversification requirements and other restrictions of the 1940 Act, which if they had been applicable, might have adversely affected its performance. In addition, the predecessor limited liability company was not subject to sales loads that would have adversely affected performance. The predecessor limited liability company's past performance is not necessarily an indication of how the BTS Tactical Fixed Income Fund will perform in the future.

(b) Inception date for Class C is May 31, 2013.

(c) Inception date for Class I is May 27, 2015.

(d) Inception date for Class R is May 5, 2015.

# **BTS Tactical Fixed Income Fund**

## **NOTES TO FINANCIAL STATEMENTS (Unaudited)**

### **June 30, 2016**

#### **1. ORGANIZATION**

BTS Tactical Fixed Income Fund (the “Fund”) is a diversified series of shares of beneficial interest of Northern Lights Fund Trust (the “Trust”), a trust organized under the laws of the State of Delaware on January 19, 2005 and is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Fund commenced operations on May 31, 2013. On August 12-13, 2014, the Board approved the reorganization of BTS Bond Asset Allocation Fund into the Fund. On December 12, 2014, the BTS Bond Asset Allocation Fund merged into the Fund. The investment objective of the Fund is to seek to provide total return.

The Fund currently offers four classes of shares: Class A shares, Class C shares, Class I shares and Class R shares. Class A shares and Class C shares commenced operations on May 31, 2013, Class I shares commenced operations on May 27, 2015 and Class R shares commenced operations on May 5, 2015. Class A shares are offered at net asset value plus a maximum sales charge of 5.00%. Class C shares, Class I shares and Class R shares are offered at net asset value. Each class of shares of the Fund has identical rights and privileges, except with respect to arrangements pertaining to shareholder servicing or distribution, class-related expenses, voting rights on matters affecting a single class of shares, and the exchange privilege of each class of shares. The Fund share classes differ in the fees and expenses charged to shareholders. The Fund’s income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class.

#### **2. SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. The Fund follows the specialized accounting and reporting requirements under GAAP that are applicable to investment companies.

**Securities Valuation** – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the primary exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ at the NASDAQ Official Closing Price (“NOCP”). In the absence of a sale such securities shall be valued at the mean between the current bid and ask prices on the day of valuation. Debt securities (other than short-term obligations) are valued each day by an independent pricing service approved by the Trust’s Board of Trustees (the “Board”) based on methods which include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type, indications as to values from dealers, and general market conditions or market quotations from a major market maker in the securities. Investments valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost.

The Fund may hold securities, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities will be valued using the “fair value” procedures approved by the Board. The Board has delegated execution of these procedures to a fair value team composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) advisor. The team may also enlist third party consultants such as a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board has also engaged a third party valuation firm to attend valuation meetings held by the Trust, review minutes of such meetings and report to the Board on a quarterly basis. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

**Fair Valuation Process** – As noted above, the fair value team is composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) advisor. The applicable investments are valued collectively via inputs from each of these groups. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source), (ii) securities for which, in the judgment of the advisor, the prices or values available do not represent the fair value of the instrument. Factors which may cause the advisor

**BTS Tactical Fixed Income Fund**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**June 30, 2016**

to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; (iv) securities with respect to which an event that will affect the value thereof has occurred (a “significant event”) since the closing prices were established on the principal exchange on which they are traded, but prior to the Fund’s calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid securities, such as private placements or non-traded securities are valued via inputs from the advisor based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If the advisor is unable to obtain a current bid from such independent dealers or other independent parties, the fair value team shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund’s holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

**Exchange Traded Funds** – The Fund may invest in exchange traded funds (“ETFs”). ETFs are a type of index fund bought and sold on a securities exchange. An ETF trades like common stock and represents a fixed portfolio of securities designed to track the performance and dividend yield of a particular domestic or foreign market index. The Fund may purchase an ETF to gain exposure to a portion of the U.S. or a foreign market. The risks of owning an ETF generally reflect the risks of owning the underlying securities they are designed to track, although the lack of liquidity on an ETF could result in it being more volatile. Additionally, ETFs have fees and expenses that reduce their value.

**Valuation of Fund of Funds** – The Fund may invest in portfolios of open-end or closed-end investment companies (the “Underlying Funds”). The Underlying Funds value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value to the methods established by the board of directors of the Underlying Funds.

Open-end investment companies are valued at their respective net asset values as reported by such investment companies. The shares of many closed-end investment companies, after their initial public offering, frequently trade at a price per share, which is different than the net asset value per share. The difference represents a market premium or market discount of such shares. There can be no assurances that the market discount or market premium on shares of any closed-end investment company purchased by the Fund will not change.

The Fund utilizes various methods to measure the fair value of all of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

- Level 1** – Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.
- Level 2** – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3** – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

**BTS Tactical Fixed Income Fund**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**June 30, 2016**

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following table summarizes the inputs used as of June 30, 2016 for the Fund's investments measured at fair value:

Assets *	Level 1	Level 2	Level 3	Total
Short-Term Investments	\$ 366,978,589	\$ -	\$ -	\$ 366,978,589
Total Investments	\$ 366,978,589	\$ -	\$ -	\$ 366,978,589

The Fund did not hold any Level 2 or Level 3 securities during the period.

There were no transfers into and out of Level 1 and Level 2 during the period. It is the Fund's policy to recognize transfers into or out of Level 1 and Level 2 at the end of the reporting period.

\*Refer to the Portfolio of Investments for classification.

**Security Transactions and Related Income** – Security transactions are accounted for on trade date. Interest income is recognized on an accrual basis. Discounts are accreted and premiums are amortized on securities purchased over the lives of the respective securities. Dividend income is recorded on the ex-dividend date. Realized gains or losses from sales of securities are determined by comparing the identified cost of the security lot sold with the net sales proceeds.

**Dividends and Distributions to Shareholders** – Dividends from net investment income, if any, are declared and paid quarterly. Distributable net realized capital gains, if any, are declared and distributed annually. Dividends from net investment income and distributions from net realized gains are recorded on ex dividend date and are determined in accordance with federal income tax regulations, which may differ from GAAP. These “book/tax” differences are considered either temporary (i.e., deferred losses, capital loss carry forwards) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their Federal tax-basis treatment; temporary differences do not require reclassification. These reclassifications have no effect on net assets, results from operations or net asset value per share of the Fund.

**Federal Income Tax** – The Fund intends to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no Federal income tax provision is required. The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years 2013-2015, or expected to be taken in the Fund's 2016 tax returns. The Fund identified their major tax jurisdictions as U.S. Federal, Nebraska and foreign jurisdictions where the Fund may make significant investments. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

**Expenses** – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses which are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

**Indemnification** – The Trust indemnifies its officers and Trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

**3. INVESTMENT TRANSACTIONS**

For the six months ended June 30, 2016, cost of purchases and proceeds from sales of portfolio securities, other than short-term investments, amounted to \$509,275,372 and \$527,356,279, respectively.

**BTS Tactical Fixed Income Fund**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**June 30, 2016**

**4. INVESTMENT ADVISORY AGREEMENT / RELATED PARTY TRANSACTIONS**

BTS Asset Management, Inc. serves as the Fund's investment advisor (the "Advisor"). Pursuant to an investment advisory agreement with the Trust, on behalf of the Fund, the Advisor, under the supervision of the Board, oversees the daily operations of the Fund and supervises the performance of administrative and professional services provided by others. As compensation for its services and the related expenses borne by the Advisor, the Fund pays the Advisor an investment advisory fee, computed and accrued daily and paid monthly, at an annual rate of 1.00% of the Fund's average daily net assets. For the six months ended June 30, 2016, the Advisor earned advisory fees of \$1,329,876.

Pursuant to a written contract (the "Waiver Agreement"), the Advisor has agreed to waive all or part of its advisory fees and/or make payments to limit Fund expenses (exclusive of any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example option and swap fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes, and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Advisor))) at least until April 30, 2017, so that the total annual operating expenses of the Fund do not exceed 2.00%, 2.75%, 1.75%, and 2.25% of the average daily net assets of each of the Fund's Class A, Class C, Class I, and Class R shares, respectively. Contractual waivers and expense payments may be recouped by the Advisor from the Fund, to the extent that overall expenses fall below the expense limitation, within three years of when the amounts were waived.

Distributor – The distributor of the Fund is Northern Lights Distributors, LLC (the "Distributor"). The Trust has adopted, on behalf of the Fund, the Trust's Master Distribution and Shareholder Servicing Plans (the "Plans"), as amended, for Class A, Class C and Class R shares pursuant to Rule 12b-1 under the 1940 Act, to pay for certain distribution activities and shareholder services. Under the Plans, the Fund may pay an annual rate of 0.25% of the average daily net assets of the respective Fund's Class A shares, 1.00% of the average daily net assets for the respective Fund's Class C shares, and 0.50% of the average daily net assets for the respective Fund's Class R shares for distribution and shareholder service activities. For the six months ended June 30, 2016, the Fund incurred distribution fees of \$167,547, \$218,054 and \$3,607 for Class A, Class C, and Class R, respectively.

The Distributor acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares. For the six months ended June 30, 2016, the Distributor received \$348,507 in underwriting commissions for sales of the Fund's Class A shares, of which \$41,595 was retained by the principal underwriter or other affiliated broker-dealers.

In addition, certain affiliates of the Distributor provide services to the Fund as follows:

*Gemini Fund Services, LLC* ("GFS"), an affiliate of the Distributor, provides administration, fund accounting, and transfer agent services to the Trust. Pursuant to a separate servicing agreement with GFS, the Fund pays GFS customary fees for providing administration, fund accounting and transfer agency services to the Fund. A Trustee and certain officers of the Trust are also officers of GFS, and are not paid any fees directly by the Fund for serving in such capacities.

*Northern Lights Compliance Services, LLC* ("NLCS"), an affiliate of GFS and the Distributor, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from the Fund.

*Blu Giant, LLC* ("Blu Giant"), an affiliate of GFS and the Distributor, provides EDGAR conversion and filing services as well as print management services for the Fund on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Fund.

**5. REDEMPTION FEES**

The Fund may assess a short-term redemption fee of 1.00% of the total redemption amount if a shareholder sells their shares after holding them for less than 30 days. The redemption fee is paid directly to the Fund. For the six months ended June 30, 2016 the Fund assessed \$7,350, \$2,382, \$5,043 and \$84 in redemption fees for Class A, Class C, Class I and Class R shares, respectively.

**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**June 30, 2016**

**6. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL**

The tax character of fund distributions paid for the year ended December 31, 2015 and December 31, 2014 was as follows:

	Fiscal Year Ended December 31, 2015	Fiscal Year Ended December 31, 2014
Ordinary Income	\$ 1,396,784	\$ 1,232,256
Long-Term Capital Gain	-	429,403
	<u>\$ 1,396,784</u>	<u>\$ 1,661,659</u>

As of December 31, 2015, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gains	Post October Loss and Late Year Loss	Capital Loss Carry Forwards	Other Book/Tax Differences	Unrealized Appreciation/ (Depreciation)	Total Accumulated Earnings/(Deficits)
\$ -	\$ -	\$ (7,493,876)	\$ (2,502,005)	\$ -	\$ -	\$ (9,995,881)

At December 31, 2015, the Fund had capital loss carry forwards for federal income tax purposes available to offset future capital gains as follows:

Non-Expiring Short-Term	Non-Expiring Long-Term	Total
\$ 2,502,005	\$ -	\$ 2,502,005

For the BTS Tactical Fixed Income Fund, \$2,502,005 of capital loss carryover related to the merger with the BTS Bond Asset Allocation Fund is remaining to be recognized over the next three years. This amount is subject to an annual limitation of \$1,003,850 under tax rules.

Capital losses incurred after October 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Fund incurred and elected to defer such capital losses of \$7,493,876.

Permanent book and tax differences, primarily attributable to the reclass of dividend distributions, resulted in reclassification for the year ended December 31, 2015 as follows:

Paid In Capital	Undistributed Net Investment Income (Loss)	Accumulated Net Realized Gains (Loss)
\$ (49,551)	\$ (92,325)	\$ 141,876

**7. UNDERLYING INVESTMENT IN OTHER INVESTMENT COMPANIES**

The Fund currently invests a portion of its assets in the Goldman Sachs Financial Square Funds – Prime Obligations Fund (the “Goldman Fund”). The Fund may redeem its investment from the Goldman Fund at any time if the Advisor determines that it is in the best interest of the Fund and its shareholders to do so. The performance of the Fund may be directly affected by the performance of the Goldman Fund. The financial statements of the Goldman Fund, including the portfolio of investments, can be found at the Securities and Exchange Commission’s website [www.sec.gov](http://www.sec.gov) and should be read in conjunction with the Fund’s financial statements. As of June 30, 2016, the Fund was entirely invested in the Goldman Fund.

**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**June 30, 2016**

**8. CONTROL OWNERSHIP**

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates presumption of control of the fund, under Section 2(a)(9) of the 1940 Act. As of June 30, 2016, NFS LLC held approximately 31.40% of the voting securities of the Fund for the benefit of others. The Fund has no knowledge as to whether all or any portion of the shares owned on record by NFS LLC are also owned beneficially by any party who would be presumed to control the Fund.

**9. SUBSEQUENT EVENTS**

Subsequent events after the date of the Statements of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there are no other events requiring adjustment or disclosure in the financial statements.

## BTS Tactical Fixed Income Fund EXPENSE EXAMPLES (Unaudited) June 30, 2016

### Example

As a shareholder of the Fund, you will pay (1) transaction costs (loads and redemption fees) and (2) ongoing expenses, such as advisory fees, distribution and service fees (12b-1), and other fund expenses. The following examples are intended to help you understand the ongoing cost (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Please note the expenses shown in the tables are meant to highlight ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), or contingent deferred sales charges on redemptions which may be assessed by mutual funds. This Example is based on an investment of \$1,000 invested at the beginning of the period in a fund and held for the entire period from January 1, 2016 to June 30, 2016.

### Actual Expenses

The columns under the heading entitled “Actual” help you estimate the actual expenses you paid over the period. The “Actual Ending Account Value” shown is derived from the Fund’s actual return, and the “Actual Expenses Paid During Period” shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. To estimate the expenses you paid on your account during this period, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the column under the heading entitled “Actual Expenses Paid During Period”.

### Hypothetical Examples for Comparison Purposes

The columns under the heading entitled “Hypothetical” provide information about hypothetical account value and hypothetical expenses based on the Funds actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs which may be applicable to your account. Therefore, the last column of the table (Hypothetical Expenses Paid During Period) is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

				<i>Actual</i>	<i>Hypothetical</i> (5% return before expenses)	
	<i>Fund's Annualized Expense Ratio</i>	<i>Beginning Account Value 1/1/16</i>	<i>Ending Account Value 6/30/16</i>	<i>Expenses Paid During Period *</i>	<i>Ending Account Value 6/30/16</i>	<i>Expenses Paid During Period **</i>
BTS Tactical Fixed Income Fund – Class A	1.57%	\$1,000.00	\$1,103.10	\$ 8.21	\$1,017.06	\$ 7.87
BTS Tactical Fixed Income Fund – Class C	2.32%	\$1,000.00	\$1,099.20	\$12.11	\$1,013.33	\$ 11.61
BTS Tactical Fixed Income Fund – Class I	1.32%	\$1,000.00	\$1,104.30	\$ 6.91	\$1,018.30	\$ 6.62
BTS Tactical Fixed Income Fund – Class R	1.82%	\$1,000.00	\$1,101.60	\$ 9.51	\$1,015.81	\$ 9.12

\*Expenses are equal to the Fund’s annualized expense ratio, multiplied by the number of days in the period (182) divided by the number of days in the fiscal year (366).

\*\*Expenses are equal to the average account value over the period, multiplied by the Portfolio’s annualized expense ratio, multiplied by the number of days in the period (182) divided by the number of days in the fiscal year (366).
